

> CyberPrism Secure

Our comprehensive OT SECaaS pathway sits within the relevant regulatory frameworks to ensure the safety and integrity of your business-critical OT.

> TAKE CONTROL OF YOUR
OPERATIONAL TECHNOLOGY

> CyberPrism Secure

CYBERPRISM provides a complete range of cyber security services for Energy, Industry, Maritime and Government.

We operate in the UK and internationally, focusing on OT, and associated IT and Communications.

Our services sit within the relevant regulatory frameworks and guidance in each industry, such as NISD/NISR, OG86, IEC62443, IMO ISM Code and others. Indeed, our people have written some of the official guidance.
